Submitted.

The garden attached to the Private Secretary's Quarters at Mysore is being watered by the house connection given to the Quarters themselves from the Vani Vilas Water Works. This fact was brought to notice in August 1910 when the Superintendent, Govt Gardens subd for the orders of Govt the corree relating to the payment of charges for excess water used at the Private Secretary's quarters. Thereupon, it was ordered that the excess charge should be met by the PWD in whose charge the building was, and that in future similar charges should be borne by the Gardens Deptt, a separate meter being put up for the house proper. When in May 1911, the Supdt of Govt Gardens accordingly asked for a provision of Rs 375/- being made for water charges in this connection in the budget of 1911-12, it was pointed out that the use of pipe-water for garden purposes was improper and accordingly, the maintenance of a water-cart at

a cost of Rs 180/- per annum was sanctioned with effect from 1st July 1912. The Comptroller thereupon enquired in the beginning of the current off. year if both the water-cart and the water-connection are necessary or whether the water-connection may be dispensed with. When the Garden Supdt was asked about it, he now states that the pond from which it was intended to cart the water for the Gardens having been filled up, and the water cart is not an efficient means of watering the garden, and proposes to utilise the pipe water instead, as heretofore, paying therefor from the sum of Rs 180/- provided in the current year's budget for the maintenance of the water cart.

9. The re-appropriation of Rs 180/- sanctioned last year, being on account of charges for the water consumed during last year, does not, it is subd require being cancelled.

SERIAL No. 3

To

K.R.Sreenivasa Iyengar,Esq.,M.A.,
Offg. Secretary to the Government of His Highness the
Maharaja of Mysore, Gen. & Rev. Departments,Bangalore.

Sir,

With reference to your letter No.G.408/G,M,77-12-2 regarding the use of pipe water at the Private Secretary's quarters at Mysor I have the honor to state that although for purposes of calculating the cost of watering the garden, the maintenance of a water cart was provided, since then,however, the pond next to the Garde has been filled up, so that even if it had been then intended to actually use a water cart, it would now be impracticable owing to the great distance from which the water would have to be carted. Apart from the inefficency in spreading the water and extra labou entailed, a water cart is not a desirable means of watering and would, in this case, be quite insufficient.

It is therefore requested that the arrangements at present in vouge, may be allowed to continue, the bills for water cess being met from the amount of Rs.180/- per annum provided in the estimates and that no water cart be kept.

I have the honor to be,
Sir,
Your most obedient servant,

Economic Botanist,
Superintendent, Govt. Gardens.
